

SonataSuite Billing

With Sonata Billing you have a fully featured call accounting application that will allow you to manage your call expenses. Apply different rates and tariffs, create reports based on usage, Carriers, Rates, and more!

Part of the VitalPBX Family of applications

SonataSuite Billing

Add carrier rates to measure PBX use from different group of extensions or cost centers.

Generate detailed reports based of multiple criteria to get specific usage from your PBX.

Automate the report generation and receive automatic emails with recurring reports.

Create custom customer rates to add a markup to the call tariffs and measure a profit for the calls placed on your PBX.
